The island is a little over 300 kilometres from the African coast and some 1,300 kilometres from the Iberian Peninsula. It has a surface area of 2,034 Km<sup>2</sup> and a curious triangular shape, with the gigantic peak of Mount Teide in the centre, which at 3,718 metres is the highest point in all of Spain. Tenerife is a volcanic island with its origin around the end of the Tertiary period. Seven million years ago the areas of Teno, Anaga and Adeje emerged which were later joined to form the backbone mountain range of the island, the Cordillera Dorsal.

The El Mirador Gran Hotel \*\*\*\*\*, is located in Adeje, on the idyllic Playa del Duque beach surrounded by the best and the most modern hotels in Tenerife.
